

Bio Treat

Biological Portable Toilet Additive

A biological alternative to formaldehyde-based products, Bio Treat rapidly degrades urine and waste and replaces odours with a pleasant long lasting fragrance.

KEY PROPERTIES

Bio Treat degrades urine and faeces rapidly and is a natural and effective replacement for those still using Formaldehyde-based Portable Toilet fluids. *Formaldehyde is carcinogenic, a water pollutant and requires special handling and disposal methods!*

- Long lasting biological action
- Helps reduce emptying cycles
- Reduces odours
- Formaldehyde free
- Sewer discharge friendly

Designed for domestic portable toilets or industrial and commercial toilets subject to light use.

APPLICATION

- Add 50-100ml of Bio Treat to a standard 10 Litre capacity chemical toilet, or 5-10ml for every litre of toilet capacity.
- For use as a rinse solution, add 2.5-5ml for every litre of capacity.
- Top up with water.
- For short term applications - for example 1-2 days - dilute Bio Treat by 50% before applying at rates given above.
- For open toilets, increase the dosage to a maximum of 100ml per litre, as required.
- To complement Bio Treat, we recommend the use of our biological washroom products, **Bio Clean** and **Bio TCD**.

TECHNICAL DATA

Appearance	Blue Liquid	SG	1.0
pH	8.5	Bacterial Count	$> 1.0 \times 10^7$ cfu/ml

PACKAGING

12 x 1L bottles, 2 x 5L containers, 4 x 5L containers, 20L containers

SAFE HANDLING AND STORAGE

Store in original containers and avoid extremes of temperature. For guidance on handling and disposal, see Safety Data Sheet.
