

Bio VC

Vehicle Cleaner and Sanitiser

A Sanitiser and degreaser especially designed for cleaning vehicles between cargo changes.

The transportation of food requires vehicles to be maintained to the highest hygiene standards.

Keeping bacterial infection under control and minimising cross infection is achieved by the regular use of an effective Vehicle Sanitiser.

KEY PROPERTIES

Bio VC is a medium foaming sanitiser concentrate that has a highly effective degreasing and sanitising action to quickly clean and sanitise cargo vehicle interiors.

It produces a light visible foam to enable vehicle operators to ensure complete coverage.

Bio VC is readily rinseable and is non-food tainting.

Bio VC is vehicle friendly and also makes an excellent Traffic Film Remover for vehicle exteriors.

APPROVALS

Bio VC meets BS6471 Disinfection Test.

APPLICATION

Dilute to a 2-5% solution to produce a foaming and sanitising action. Can be used with either high or low pressure water lance systems.

TECHNICAL DATA

Appearance	Clear liquid		
pH at 2% solution	Approximately 10	SG	1.06

PACKAGING

5L & 20L containers.

SAFE HANDLING AND STORAGE

Store in original containers and avoid extremes of temperature. For guidance on handling and disposal see Material Safety Data Sheet.

Manufactured & supplied by Bio Technics Ltd
