

AntiBak

RESIDUAL

INTERMEDIATE LEVEL DISINFECTION - HARD SURFACES

NEW
7 DAY
RESIDUALITY

What is AntiBak Residual?

A new approach to the disinfection of hard to reach surfaces.

AntiBak Residual not only kills bacteria such as MRSA, *E. coli*, and *Salmonella* on contact, but continues to do so for **UP TO 7 DAYS** after application.

Perfect for use on equipment, walls, floors, surfaces and other areas that aren't cleaned daily.

PACKAGING

Ready-to-use:

AntiBak RESIDUAL

used with a
Steam Cleaner

Tiles were cleaned once using a steam cleaner - one set with **AntiBak Residual*** and steam, one set with **steam only**.

The tiles were sprayed with **E.coli** bacteria **4 times** over **7 days**, and bacterial counts compared.
