

Bio Drain Fresh

Biologically Removes Drain Line Odours

Bio Drain Fresh is the solution for the removal of fats and greases in Drain Lines.

A biological solution that quickly removes Drain Line malodours – and continues to work long after initial application.

KEY PROPERTIES

Bio Drain Fresh is a highly effective biological product. Designed to form a bio-film around the inside of drain lines and pipework, Bio Drain Fresh captures and digest fats and greases (FOG) – the main cause of washroom malodours.

Supplied in an easily pourable gel, Bio Drain Fresh contains a pleasant long lasting fragrance.

Suitable for use in domestic and smaller commercial operations.

- Biological
- Hazard label free
- Effective 2-3 days after application

APPLICATION

To remove washroom drain odours, apply 50 ml direct to the sink drain line for 3 consecutive days.

For systems prone to build up of fats and greases, continue to apply 50 ml once per week.

TECHNICAL DATA

| | | | |
|-----------------|----------------------------|----|-----|
