

Bio ONA Concentrate

Biological Odour Neutralising Agent – Super Concentrate

A highly concentrated, long lasting biological neutralising agent that quickly and effectively deals with malodours.

Specially grown bacterial cultures, supported in a liquid medium, that digest a wide variety of organic material known to cause offending odours.

Also as effective as channel block in removing urinal odours!

KEY PROPERTIES

When used at recommended dilutions, Bio ONA (Odour Neutralising Agent) Concentrate eliminates residual odours.

Containing specialised microbial products, Bio ONA Concentrate binds together with odour causing molecules then biologically degrades and permanently converts them to CO₂ and water.

Effective Against:

- Washroom odours
- Pet odours
- Decaying food
- Cigarette smoke

Effective on:

- Curtains, carpets and fabrics
- Car interiors
- Rubbish bins
- Flood and fire odours

APPLICATION

Use at dilutions between 1:20 (5%) and 1:10 (10%)

Use in a trigger spray or via automatic industrial spray systems.

Apply directly to source of malodour and repeat daily until neutralised.

TECHNICAL DATA

Appearance		Opaque to clear liquid	
Effective Temperature Range		5 to 45 C	
Bacteria Count		5.4 10 ⁷ cfu/ml	
pH	6.0 – 7.5	SG	1.0

PACKAGING

4 x 5 litre and 20 Litre containers

SAFE HANDLING AND STORAGE

Avoid inhalation, ingestion and contact with eyes. Keep out of reach of children. Store in original containers and avoid extremes of temperature. Stable for one year at temperatures up to 40 C.

For storage temperatures above 40 C, consult Bio Technics technical support. For guidance on handling and disposal see Material Safety Data Sheet.
